SUMMARY

Front-End Developer with 2 years of professional experience building production web applications using React.js, Next.js, and modern JavaScript. Skilled in responsive UI development, reusable components, REST API integration, and translating UI/UX designs into scalable web experiences, with additional experience in Node.js and project-based freelance development.

PROFESSIONAL EXPERIENCE

Front-End Developer

Qeema Tech Software Company 

01/2025 – Present
Cairo, Egypt

- Developed and maintained production web applications using **React.js, Next.js, and JavaScript**.
- Built reusable, responsive UI components by translating **Figma designs into functional interfaces**.
- Integrated **REST APIs** and implemented dynamic, data-driven application flows.
- Debugged production issues and optimized interfaces across **devices and screen sizes**.
- Collaborated with backend developers and UI/UX designers to deliver scalable, high-quality web solutions.

Freelance Web Developer

Self-Employed | Project-Based

01/2022 – Present

- Delivered project-based web solutions for clients using **React.js, Next.js, JavaScript, and WordPress**.
- Built responsive interfaces and implemented client-specific functionality and **API integrations**.
- Managed selected projects from requirements gathering through development, testing, and delivery.
- Communicated directly with clients to understand requirements and resolve technical issues.

SKILLS

Front-End Development

- React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery

Libraries & Front-End Tools

React Router, React Query, Formik, Context API, Vite, npm

Version Control & Development Tools

- Git, GitHub, ESLint, Debugging

Backend & Database

Node.js, Express.js, MySQL

Styling & UI

Tailwind CSS, Bootstrap, SASS/SCSS, Responsive Design, Figma

API Development & Testing

REST APIs, Axios, Fetch API, JSON, Postman, Apidog

Programming Fundamentals

OOP, Data Structures, Algorithms, Problem Solving, Clean Code

CMS

WordPress

PROJECTS

Multi-Country Multi-Vendor E-Commerce Platform

React.js • TypeScript • Vite • Tailwind CSS • React Router • Axios

- Developed a production-grade multi-country, multi-vendor e-commerce platform using React.js, supporting both physical and digital products with country-specific catalogs, currencies, pricing, and dynamic cart and checkout logic.

- Implemented complex front-end flows including authentication, KYC identity verification, digital-product purchasing, vendor interactions, order management, secure account verification, and responsive user experiences.
- Collaborated closely with a Laravel backend developer to integrate, test, and troubleshoot REST APIs using Axios, Postman, and Apidog, while building reusable components and maintaining clean, scalable front-end architecture.

Advanced Real Estate Marketplace Platform [🔗](#)

Next.js • React.js • TypeScript • Tailwind CSS

- Recreated complex real-estate marketplace experiences inspired by Aqarmap, including property discovery, advanced search and filtering, compound directories, property details, favorites, user accounts, and valuation workflows.
- Built a scalable Next.js architecture using Server Components, reusable UI modules, dynamic routing, and URL-driven filtering to support large, data-heavy marketplace flows.
- Delivered a responsive Arabic RTL experience with strong TypeScript structure, form validation, dynamic SEO, and maintainable front-end components designed for real-world production use.

Pets Zone Multi-Vendor E-Commerce Platform [🔗](#)

Next.js • React.js • TypeScript • Tailwind CSS • REST APIs • Postman

- Developed a production-focused multi-vendor e-commerce platform for Pets Zone using Next.js, React, TypeScript, and Tailwind CSS, covering product discovery, vendor storefronts, cart, checkout, favorites, orders, and customer account flows.
- Implemented complex commerce features including product variants, payments, wallet and loyalty points, vendor-based product experiences, authentication, support tickets, and responsive shopping interfaces.
- Integrated and tested backend APIs across major platform flows using a structured API layer and Postman, while building reusable, maintainable components and handling real-world e-commerce states and interactions.

EDUCATION

Bachelor's Degree in Computers and Information

2019 – 2023

Damanhour University

GPA: 3.21 / 4.00

COURSES

Front-End Development Diploma [🔗](#)

Route IT Training Center

React.js, JavaScript, HTML5, CSS3, Bootstrap, SASS/SCSS, REST APIs, and Responsive Web Development.

Network Security Training — 108 Hours [🔗](#)

Information Technology Institute (ITI)

Computer Networks, Cybersecurity Fundamentals, Firewalls, Windows Server Administration, and Red Hat Administration.
